

## Men's Shirts – Sizing/Fitting Chart

**NOTE:** Shirts are a loose-fitting, bowling style – which means there is a lot of extra room in the fit! The chart below shows what chest size each shirt size is supposed to fit -- but also shows what the actual chest measurement is for each size of my shirts. If you are unsure of what size to purchase, measure the chest (and possibly the center back length) of a shirt that you have, that fits the way you like, and compare those measurements to the actual shirt measurements as shown below.

**If you are still unsure what size to purchase, please feel free to contact me.**

**\*\*SIZES 3XL, 4XL & 5XL ARE AVAILABLE BY CUSTOM ORDER ONLY.  
Please contact me for availability and pricing.**

<b>Size</b>	<b>Made to fit</b>	<b>Actual shirt chest measurement</b>	<b>Actual center back measurement</b>
