purchasing an embroidered cap

CAP FITTING INFORMATION

No returns will be accepted on caps if this information is not read/followed before purchasing.

All of the ready made caps I purchase (for embroidery) are sized a bit differently. It is important to measure your head and compare your head measurements to the the cap measurements I provide in the listing (or you can measure a cap that you already have that you know fits).

I have provided pictures below to show how

I measure the inner circumference and crown of the hats.

Note: The inside and crown measurements of the actual hat should be a little bit larger than your head measurement - for ease of wearing.

If you have any questions, please contact me **BEFORE** purchasing a hat!
